

## FOUR WAYS TO ACHIEVE FULLER BROWS:

### 1 FOR BOLDER BROWS

*try...* **Smashbox Brow Tech To Go**, \$30

Bold yet natural-looking brows are foolproof with this dual-ended applicator. The thin pencil allows for precise definition, while the soft-hold gel grooms hairs into place.

### 2 FOR PERFECTLY POLISHED ARCHES

*try...* **Pür Minerals Brow Perfection Trio**, \$24

The wax and powders work together to shape and define brows. The wax keeps hairs in place, while the powders fill in any sparse areas.

ONLY AT SHOPPERS

### 3 FOR EXPERTLY SHAPED ARCHES

*try...* **Revlon ColorStay Brow Enhancer**, \$12

A swipe of the wax end of this enhancer colours and sets for up to 16 hours, while the highlighter adds definition to the brow bone for a flawless finish.

### 4 FOR TAMING UNRULY HAIRS

*try...* **Benefit Speed Brow Quick-Set Brow Gel**, \$22

This one-shade-fits-all brow gel gives a natural look, while the tint deposits a hint of colour for a fuller appearance.

## “MY EYEBROWS ARE TOO SKINNY. HELP!”

THE KEY TO faking fuller arches is a well-stocked brow makeup wardrobe. “It’s really about manipulating and working with what you don’t have to create a fuller brow,” says Ashley Manias, the national education and training director at Benefit Cosmetics Canada and resident brow expert. She recommends using a wax/powder combination to help fill in sparse brows. The wax helps to set up the area for powder, ensuring that colour stays put. To find your most flattering shape, Manias suggests seeing a brow professional at least once a month. “Maintenance is a lot easier when you have a guide.” –DANIELLE THOMSON

## ask a beauty expert

To restore brows sans makeup, try a hair-regenerating formula. Phibi Sayegh, a brow specialist at Murale, recommends applying a brow-enhancing serum, like **RapidBrow Enhancing Serum**, \$40, twice a day (morning and night) to fortify hair with proteins, peptides and vitamins, which aid in growth. “Leave it on for at least five minutes before putting anything else on your face,” she says. “This way, it has time to properly absorb into the hair follicle.”
